

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (currently amended) A single-use nonwoven anti-microbial wipe comprising a readily releasable anti-microbial agent wherein said nonwoven anti-microbial wipe comprises a fibrous nonwoven substrate treated with a non-ionic binder and a cationic dual quaternary ammonia anti-microbial agent, said cationic anti-microbial agent being readily released upon being introduced to an associated water source.

Claim 2 (currently amended) A single-use nonwoven anti-microbial wipe as in claim 1, wherein said fibrous nonwoven substrate is hydroentangled.

Claim 3 (canceled)

Claim 4 (currently amended) A single-use nonwoven anti-microbial wipe comprising a readily releasable anti-microbial agent wherein said nonwoven anti-microbial wipe comprises a fibrous nonwoven substrate coated with a non-ionic and cationic binder mixture and subsequently coated with a cationic dual quaternary ammonia anti-microbial agent, said cationic anti-microbial agent being readily released upon being introduced to an associated water source.

Claim 5 (currently amended) A single-use nonwoven laminate anti-microbial wipe comprising a readily releasable anti-microbial agent wherein said nonwoven anti-microbial wipe comprises a fibrous nonwoven substrate coated with a non-ionic binder and subsequently coated with a cationic dual quaternary ammonia anti-microbial agent, said cationic anti-microbial agent being readily released upon being introduced to an associated water source, wherein said laminate comprises a spunbond nonwoven fabric layer and another nonwoven fabric layer of staple length fibers.

U.S. Patent Application No. 10/699,425
Amendment Submitted with RCE
Reply to Final Office Action dated April 16, 2007

Claim 6 (currently amended) A single-use nonwoven anti-microbial wipe as in claim 1, wherein said anti-microbial wipe is a single-use hard surface wipe.

Claim 7 (canceled)

Claim 8 (currently amended) A single-use nonwoven anti-microbial wipe as in claim 1, wherein said fibrous nonwoven substrate ~~substrates~~ comprises carded and cross-lapped staple length fibers.

Claims 9-14 (canceled)
